Mongo DB   JQuery   REST API   MaterialUI   Tailwind CSS   GIT/Github   Postman

EDUCATION

B.Tech in Computer Engineering   **CGPA : 7.4**

RK University, Rajkot   2021 - 2025

HSC GSEB   **Percentage: 72%**

Shree Swaminarayan Gurukul, Rajkot   2019 – 2021

PROJECTS

T-Hub – T-Shirt E-commerce Platform ⭘   January –2024

- Developed T-Hub, a T-shirt e-commerce platform, using the MERN stack.

- Integrated Tailwind CSS for a visually appealing and responsive user interface.

- Implemented secure payment gateways for trustworthy online transactions.

Blogy Hub – Blogging platform ⭘ 🔗   December – 2023

- Developed Blogy Hub, a responsive blogging platform using React and the Appwrite backend service.

- Integrated TinyMCE for a streamlined code editing experience, enhancing blog post creation.

- Implemented user authentication and efficient data management with Appwrite for a reliable content storage solution.

FilmyHub – Movie website ⭘ 🔗   August- 2023

- Developed a movie review website using HTML, CSS, Node.js, and Express.js.

- Integrated real-time data from the TMDB API.

- Designed and implemented a user-friendly front-end interface for browsing and creating movie watchlists.

- Implemented sign-in functionality via Google, Facebook, and email/username.
